<ul style="list-style-type: none">Developed and maintained multiple web and mobile projects using Django, Next.js, Bootstrap, Tailwind CSS, and React Native with Expo.Worked closely with clients to define project scopes, gather requirements, and deliver customized technical solutions.Integrated modern design principles to ensure responsive UI/UX and high-performance applications.Provided continuous support, feature enhancements, and troubleshooting for live systems.	

PROJECTS

Uzapay – Online Developer Payment Service 🇷🇺 | *Backend Developer*

- * Built backend services for Uzapay, a local payment integration system for Burundian developers.
- * Integrated APIs to support Android, iOS, and web platforms for seamless payment processing.
- * Implemented secure transaction handling and user authentication using Django and REST APIs.

Remote Worksite Assistant | *Full Stack Developer*

- * Developed a web application for remote work supervision and productivity tracking.
- * Enabled task assignment, activity logging, and real-time updates using Django and React native.
- * Integrated user role management for admins and team members.

E-commerce Platform | *Full Stack Developer*

- * Designed and developed an e-commerce site using Django, with full shopping cart functionality.
- * Integrated Stripe for secure online payments.
- * Implemented product search, filtering, and order tracking.

Orphanage Website | *Frontend Developer*

- * Created a responsive, user-friendly website to showcase orphanage programs and accept donations.
- * Used React and Tailwind CSS for dynamic layouts and accessible navigation.
- * Collaborated with stakeholders to ensure content aligned with community goals.

NewHorizonKiza E-learning Platform | *Full-Stack Developer*

- * Developed a scalable online learning system supporting interactive courses and assessments.
- * Used Django for the backend, Next.js for server-side rendering, and PostgreSQL for data persistence.
- * Integrated user authentication, course tracking, and admin features.

Juma-Automobile Car Dealer Website | *Full-Stack Developer*

- * Built a modern car dealership website with a dynamic landing page and inventory system.
- * Implemented advanced filtering features (brand, price, condition) and vehicle detail pages.
- * Used Django, SCSS, and PostgreSQL; added an admin panel for managing car listings.

SKILLS

Programming: Java, Python, Node.js, JavaScript/TypeScript, SQL

Frameworks: Django (Python), React (JS), Express.js (Node.js), React Native

Databases: MySQL, PostgreSQL, MongoDB, SQLite, Firebase Realtime Database

Developer Tools: Postman, IntelliJ IDEA, Visual Studio, VS Code, Visual Paradigm, Git/GitHub, Docker

Languages: Kirundi (Native), French (Fluent), English (Fluent), Swahili (Fluent)

CERTIFICATES

Responsive Web Design

freeCodeCamp

March 2022

JavaScript Algorithms and Data Structures

freeCodeCamp

October 2024

Frontend Development Libraries

freeCodeCamp

March 2022
